

# Addition and Subtraction

Ritisha Sharma

2022-09-26

## Addition

We can get the sum of two numbers using the “+” symbol. An example would be  $2+2=4$ .

```
5 + 6
```

```
## [1] 11
```

## Subtraction

To get the difference between two numbers, we should use the “-” symbol. An example would be  $2-2=0$ .

```
5 - 6
```

```
## [1] -1
```
